SEYMOUR INDIANA

TO FIX THE SCALE

Joint Conference of Miners

and Operators Now Being

Held.

IMPORTANT MATTERS

There are Several Points of Differ-

ence to Be Adjusted At the Indi-

anapolis Meeting.

Anthracite Operators Are Not Pre-

sent At the Meeting to Present

Their Side.

Indianapolis, Jan. 30.—With the ad-

jourment of the annual convention

of the United Mine Workers of Amer-

ica it develops that the big meeting

has cost the miners something like

\$100,000. Over \$12,000 has been ex-

pended for railroad fare alone. The

report of the committee on constitu-

tion brought out the fact that Pres-

ident John Mitchell has been receiving

but \$1,500 a year and expenses for

his services. He is regarded as one

of the leading union labor men of

the world. Besides being leader of the

largest body of organized laborers, he

is prominent in the National Civic

Federation movement that is striving

to solve the problem of averting

strikes and lockouts by arbitration.

The miners raised Mitchell's salary

to \$1,800, but it was remarked by

many that he should be receiving five

times that much.

The scale now binding the miners

and operators of Pennsylvania, Indi-

ana, Ohio and Illinois—the states that

sign the competitive agreement—may

not be materially changed at the joint

conference. Many of the miners, it is

believed, would be willing to work

for the wages they now receive, pro-

viding they should be paid on a run-

of-mine basis. Whether or not run-

of-mine shall be substituted for the

screen is likely to be the principal

contention at the joint conference.

The present agreement was made in

this city two years ago, and was

readopted at Columbus, O., last year,

after much discussion.

The miners this time have prepared

a demand for an advance of 10 per

cent on run-of-mine basis, although

many thought that a higher demand

should be presented. The operators

are indicating, from reports that have

been received since the miners' con-

vention began, that they will demand

a reduction of 10 per cent, so it is

thought that there may be a compro-

mise by which the present wages,

with alterations as to the run-of-mine

proposition, may be allowed to con-

tinue for another year.

It is not likely that any scale will

be fixed in this city for the anthracite

miners, as it would accomplish nothing,

inasmuch as the anthracite opera-

tors do not come to the city for the

joint conference. It is understood

that the national executive board, to

which power was given to arrange a

joint conference with the anthracite

miners and to call a strike either

sectional or general if necessary to

enforce recognition, will have a meet-

ing in Indianapolis immediately after

the adjournment of the convention for

the purpose of taking up the anthra-

cite situation.

LONG STEP FORWARD

Trustees of Carnegie Institute Re-

ceive Deed of Gift.

Washington, Jan. 30.—An adjourned

meeting of the trustees of the Car-

negie Institution was held at the state

department yesterday afternoon and

a long step was taken toward perma-

nent organization and the initiation of

work of the institution. Abram S.

Hewitt of New York called the meet-

ing to order and Secretary Hay was

elected temporary chairman and Mr.

Charles D. Walcott, temporary sec-

retary. William E. Dodge of New

York was elected to the board to fill

a vacancy caused by the declination

of ex-President Cleveland, who sent a

letter regretting his inability to serve.

After the roll call, Andrew Carnegie

made a brief address, presenting the

deed of gift.

The deed itself recites in substance

as follows: That Andrew Carnegie

deems it his duty and highest privi-

lege to administer the wealth which

has come to him as a trustee in be-

half of others, and entertaining the

belief that the best means of dis-

charging that trust is by extending

the opportunities for study and re-

search in our country, he transfers to

the trustees named \$10,000,000 of re-

gistered 5 per cent bonds of the United

States Steel corporation. This gift is

to be held in trust, the income to

be expended in founding in Washing-

ton an institution to co-operate with

those now or hereafter established

and in the broadest and most liberal

manner encourage investigation, re-

search and discovery, show the appli-

cation of knowledge to the improve-

ment of mankind, and afford instruc-

tion of an advanced character to stu-

dents properly qualified to profit

thereby.

After accepting the deed of gift the

trustees proceeded to adopt by-laws

and then elected the following offi-

cers: Chairman of the board of trust-

ees, Abram Hewitt; vice chairman,

Dr. J. S. Billings; secretary, Charles

D. Walcott. Dr. Daniel C. Gilman,

late of Johns Hopkins university, was

elected president of the Carnegie In-

stitution.

ACTING ALONE

Holland Not Swayed By Boer In-

fluence In Desire For Peace.

The Hague, Jan. 30.—It is announ-

ced on authority here that the Dutch

note to Great Britain after rehearsing

the earnest concern of that govern-

ment at the prolongation of hostilities

in South Africa, offered its good of-

fices in bringing them to a close. To

this end Holland asked whether Great

Britain would be willing to permit a

Dutch commission to proceed to South

Africa to enlighten the Boer leaders

in the field as to the real position of

affairs, and more especially since it is

understood that there is not the

slightest chance of intervention on

the part of any European power and

that the prolongation of hostilities is

useless, if the brave struggle can serve

no further good purpose. It is further

said that the Dutch government ex-

pressly announces in this note that

it possesses no authorization whatso-

ever from the Boer leaders, either in

Europe or South Africa, to take this

suggested step, but that it appeals to

Great Britain on the ground of com-

mon humanity, for military permis-

sion for the Dutch commission to ac-

complish its mission of peace.

WANTS A REVIEW

Ground Upon Which Admiral

Schley Bases His Recent

Appeal.

ALL HANGS UPON DEWEY

The Three Points Upon Which the

Admiral Lays Greatest Stress Hinge

On the Minority Report.

President Roosevelt Is Asked to Re-

view the Findings of the

Court.

Washington, Jan. 30.—The navy de-

partment has made public Admiral

Schley's appeal, delivered to the pre-

sident about a week ago. The de-

partment's "comment" will be pub-

lished in a day or two.

Admiral Schley appeals to the pre-

sident as the chief executive and com-

mander-in-chief of the army and navy,

"vested with power to regulate and

direct the acts of the several execu-

tive officers thereof," and he asks that

the president review the findings of

the court. He asks this on three

grounds, in each case basing his ap-

peal on the findings of Admiral Dewey

as opposed to the majority report.

These three grounds are set out com-

pensively in the "petition," which

fills about eight printed pages of a

pamphlet and is signed by Admiral

Schley, and by Messrs. Rayner, Park-

er and Teague of his counsel. At-

tached to the petition are three ex-

hibits, each made up of copious ex-

tracts from the testimony taken by

the court of inquiry and intended to

confirm the statements of fact made

in the petition itself.

The first ground of the appeal is

in reference to the indorsement of

Secretary Long, approving the find-

ing of the court and rendering no opi-

nion on the questions of command

and credit for the victory. The presi-

dent is asked to annul this indorse-

ment and approve Admiral Dewey's

statement declaring Schley in com-

mand, the petitioner saying that only in

this way can exact justice be done him.

The second ground of the appeal

relates to the alleged withdrawal of

the squadron at night from Santiago

bay, the character of the blockade and

the propriety of Schley's conduct.

The president is asked to annul Sec-

retary Long's indorsement of the

court's finding in this also, and sub-

stitute the holding of Admiral Dewey

that the blockade was effective.

The third ground recites Admiral

Dewey's opinion to the effect that the

passage from Key West to Cienfuegos

was made with all possible dis-

patch, having in view the importance

of arriving off Cienfuegos with suf-

ficient coal; and that the passage from

Cienfuegos to a point off Santiago was

made with as much dispatch as pos-

sible, while keeping the squadron a

unit.

It is claimed that while this is at

variance on certain points with the

opinion of the majority of the court,

it is the only decision justified by evi-

dence and facts.

The following dispatch was sent out under date of January 29: "It is reported that Miss Stone and Madame Tsilka were liberated this morning, on Turkish territory."

GENERAL MILES and Admiral Schley both deny that they have political ambitions. If they had spoken sooner they would have made impossible many newspaper stories.

SENATOR BEVERIDGE may have violated the sacred traditions of the body in interrupting Senator Teller to show the falsity of his statements regarding press censorship at Manila, but he was right on the facts. It was the exposure of his ignorance that settled Senator Teller and not the manner of it.—Indianapolis Journal.

ALMOST every town in the state that has the spirit of progress is reaching out after new industrial enterprises. Not all are succeeding to any great extent. Those that make persistent effort, and continue to do so, will in time be rewarded. Seymour is doing that sort of thing and substantial results are bound to follow.

POLITICAL GOSSIP.

Henry Hackman, of Grassy Fork township, has announced his candidacy for county commissioner.

The republican state central committee met at Indianapolis today. A secretary of the committee will be elected at this meeting and other matters appertaining to the organization and the approaching campaign are to be discussed.

Today's Indianapolis Sentinel says: "Oscar H. Montgomery, republican committeeman from the Fourth district, came to the city yesterday on business and will remain to the committee meeting today to elect a secretary. Mr. Montgomery says he has been very busy since the meeting of the committee last week and has given no attention to politics. Who will be selected for secretary is a matter of conjecture he says. The Fourth district, from which Mr. Montgomery hails, is strongly democratic and he says the only matter of political interest there at present centers in the congress. "We are waiting at present to hear whether Judge New, of North Vernon, will be a candidate," said Mr. Montgomery. If he is it will make a warm race. The republicans can not arouse much enthusiasm over the congressional nomination as there is no hope to elect any one."

Chairman O'Brien, of the democratic state committee says that the democratic state convention will be held about June 1.

Columbus will have at least three tickets in the field before the spring election. The socialists have already made the following nominations:
For mayor, Dr. K. D. Hawley.
For clerk, C. C. Meier.
For treasurer, G. P. Sturm.
For marshal, George Llewellyn.
Dr. Hawley has formerly been a democrat and was a candidate for congress in 1898 against F. M. Griffith.

Some Census Figures.

An interesting fact disclosed by the census statistics is that in ten years the general death rate has decreased from 19.6 per thousand to 17.8. This remarkable decrease is in the cities, where the rate has fallen from 21 in 1890 to 18.6 last year. The rate in the country has been about stationary, having been 15.3 in 1890 and 15.4 in 1900. This extraordinary decrease in death rate of cities has been due chiefly to improved hygienic conditions. In the country a corresponding gain has not occurred. The figures show that consumption is no longer the most fatal of diseases, pneumonia having taken its place. Deaths from consumption have decreased over 20 per cent, while a greater relative decrease is recorded in the case of diphtheria and other diseases. The diseases that show an increase are chiefly those incident to advanced age, death from old age itself showing an advance of 20 per cent.

Trying to Settle Strike.

State Labor Commissioners L. P. McCormack and B. Frank Schmidt, of Indianapolis, arrived in the city at noon from Terre Haute and are attempting to settle the B. & O. S-W. shop strike. The outlook for an early settlement is favorable and the business men and citizens expect it. They have confidence in Messrs. Schmidt and McCormack and also think that the workmen and company will make enough concessions that an agreement can be reached. It is necessary for the city that an agreement be reached as early as possible and the side showing stubbornness will suffer in public opinion. The strikers all want to go back and the majority of them feel that a mistake has been made.—Washington Gazette.

HOW THE CHINESE GET RAIN

Peculiar Practices in Vogue in the Celestial Kingdom.

It is one of the peculiarities of the Chinese that, while they have developed elaborate philosophies, none of them has led to any confidence in the uniformity of nature. Neither the people nor their rulers have any fixed opinion as to the causes of rainfall. The plan in some provinces when the need of rain is felt is to borrow a god from a neighboring district and petition him for the desired rain. If his answer is satisfactory, he is returned to his home with every mark of honor; otherwise he may be put out in the sun as a hint to wake up and do his duty. A bunch of willow is usually thrust into his hand, as willow is sensitive to moisture.

Another plan in extensive use is the building of special temples in which are wells containing several iron tablets. When there is a scarcity of rain, a messenger starts out with a tablet marked with the date of the journey and the name of the district making the petition. Arriving at another city, he pays a sum of money and is allowed to draw a new tablet from the well, throwing in his own by way of exchange. On the return journey he is supposed to eat only bran and travel at top speed day and night. Sometimes he passes through districts as greatly in need of rain as his own. Then the people in these places waylay him and, temporarily borrowing his tablet, get the rain intended for another place.

Prayers are usually made in the fifth and sixth months when the rainfall is always due, and a limit of ten days is set for their effective operation. Under such conditions rain usually falls during the prescribed time. When the prayers are in progress, the umbrellas, among other objects, comes under the ban. In some provinces foreigners have been mobbed for carrying this harmless article at that time.

DEATH BY ARSENIC.

The Way This Poison Acts Upon the Human System.

When a single dose of arsenic in sufficient quantity to be felt has been taken, colicky pains, bowel disorder and perhaps nausea result. In the course of an hour after a poisonous dose has been taken an intense burning pain is felt in the esophagus and stomach. This spreads to the entire anterior portion of the lower part of the trunk. A sense of constriction at the throat and an acrid, metallic taste accompany the pain. Then vomiting and relaxation of the bowels begin. As the case progresses the symptoms increase in intensity. Then comes a thirst that water will not allay, although it apparently increases the stomach disturbance. The victim groans and writhes. Now he implores the doctor to save him. Then he begs to be killed and put out of pain. The extremities become icy. The pulse is small, feeble and frequent, and the breathing is labored, embarrassed and painful because of abdominal tenderness. The surface of the body becomes dark and of that bluish color that medical men call cyanosed. Violent cramps add their torture, exhaustion becomes collapse, convulsions or coma ensues, and death ends the agony. This torture lasts sometimes from five to twenty hours. In some cases these symptoms occur, but in a modified form, and the doctor will apparently get the better of the disease. The remission will be but for a day or two. Then the abdomen will swell, and icy coldness will pervade the frame. Silvering will become pronounced trembling, then cramps, convulsions and death.

days in bed with intense pain and suffering. I was under the physicians' care for over a year without any relief, when my attention was called to Lydia E. I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, Mrs. HULDA JAKEMAN, Salt Lake City, Utah.

A Good Recommendation.

"I have noticed that the sale on Chamberlain's Stomach and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. What better recommendation could any medicine have than for people to call for it when again in need of such a remedy? Try them when you feel dull after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, you are certain to be delighted with the prompt relief which they afford. Thinking of Kentucky.

The editor of the Louisville Commercial must have been thinking of political conditions in Kentucky when he wrote this paragraph:

"District Attorney Jerome, in New York, seems to be working his way into the noisy nuisance class, where most of the radical reformers and political cranks usually land. He and Mayor Low have quarreled and yesterday Jerome got into a fist encounter with a coroner's clerk and got his face punched. It is unfortunate that more practical men do not get into public office. The people too often select inexperienced and impractical men for public service, while the practical, level-headed men of affairs are secured by the private enterprises, where sentiment does not count for much."

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly ward off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. Sold by C. W. Milhous.

Remarkable Cure of Croup.

A LITTLE BOY'S LIFE SAVED.
I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that I had not got the bottle of cough medicine, my boy would not be on earth today.—JOEL DEMONT, Inwood, Iowa. VERY MUCH WANTED.

The Last Few Years Has Shown a Remarkable Increase of Sleeplessness. How to Overcome it.

Sleeplessness is one of the most prolific sources producing weak—nervous and restless condition. There is no sense in using opiates, they only undermine the constitution. Nothing has ever been known to perfectly control this condition until the advent of Dr. A. W. Chase's Nerve Pills. Their action is so gentle and soothing, sweet refreshing sleep follows then nature has a chance to build up.

Mrs. F. K. Mackey, No. 614 Poplar street south, Seymour, Ind., says: "I was a sufferer from severe, nervousness, sleeplessness and dizziness. I was advised to try Dr. A. W. Chase's Nerve Pills. I got a box at A. J. Pellets Drug store and now after using the medicine I am pleased to say my nervous system has been toned up—I sleep well and am relieved of those dizzy spells. I consider these pills a splendid nerve medicine."

Dr. A. W. Chase's Nerve Pills are sold at 50c. a box at all druggists or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature A. W. Chase, M. D. are on every package.

Emmett Davis and wife, of Indianapolis, returned home last evening from a visit to the latter's sister, Mrs. Silas Ruddick and family, of Farmington.

PAT'S PHILOSOPHY.

The Sound Sense which is Sometimes Obscured by the Sparkle of Irish Wit.

Irish wit is very often unconscious. The Irishman serves up a dish of humor with a garnishing of wit. Beneath the lightest sallies of the strongest brogue, one often finds a depth of philosophy worthy of a sage.

When the Irish hod carrier fell from the ladder with his load of bricks, and was picked up by his sympathetic fellows: "Did the fall hurt ye, Pat?" said one to the half conscious man. "Faith," came the whispered answer, "It's not the fallin' that hurt me, but the stoppin'."

It sounds like an Irish "bull" but it isn't. It is profound philosophy. How

many a man who has fallen into bad habits realizes that it's the stopping that hurts. How many a good liver who has suddenly been brought up short by an aggravated case of stomach disease realizes that it's the stopping that hurts. The falling is easy enough and the sensation pleasant. That downward route marked by late lunches of lobster or Welsh rarebit, washed down with a stimulating drink, was a very pleasant one to travel. But to come hard up against Nature's punishment of dyspepsia, which stops all pleasures of eating and drinking, is the thing that hurts.

THE WAY TO HEALTH
is paved with good intentions. When there is an over-full feeling after eating, with bloating and belching, the discomfort leads the man to say, "I must do something for this 'stomach trouble.'"

But after a time the discomfort passes off and he does nothing. Sometimes he does worse than nothing by taking something to "settle the stomach" which, by giving temporary relief, encourages him to greater delay in taking the proper treatment for the diseased stomach. Palliative pellets, powders and tablets may relieve for a time, but they won't cure. They can't cure. Suppose you saturate the garbage in a barrel with cologne; there will be a sweet odor in place of a foul one until the strength of the cologne is used up, then the foul smell is worse than ever, and though perfumes may change the odor of garbage they can't arrest the decay. Underneath the perfume decay goes along unhindered. It's so with the foul and diseased stomach. The things that "settle the stomach" and correct for the time acidity, heartburn, etc., have no effect on the disease.

YOUR HOME LIBRARY
has a place that can be filled to advantage by Dr. Pierce's Common Sense Medical Adviser. This great medical work, containing over one thousand large pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send thirty-one one-cent stamps for the cloth-bound volume, or only twenty-one stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

which is progressing steadily toward the chronic stage.

HAVE YOU REACHED IT?

Have you reached that point where you've had to stop eating what you liked? Are you living on toast and tea, or oatmeal—crackers and milk, coveting the good things you don't dare eat? Do you go to the table dreading the penalty of the meal and its after suffering? You can be cured so that you can eat anything you want, eat it with appetite and digest it properly. Here's the proof:

"I was a great sufferer with dyspepsia for over two years, and I was a complete physical wreck," writes Mr. Preston E. Fenstermacher, of Egypt, Lehigh Co., Pa. "Had many torturing gnawing and aching pains—I think about all that a dyspeptic has or ever could have. I also suffered much with constipation. I tried many different medicines which were recommended to cure the trouble, but these only made me worse and my condition was more sluggish and weak than before. My stomach was in such a weak condition that the least and easiest kind of food to digest would get sour in my stomach, and I had such a weak and debilitated appearance that it seemed as if I had hardly any blood in my whole body. Muscles were soft and flabby, circulation poor and slow. Suffered greatly from cold hands and feet. At last I came across an advertisement of Dr. Pierce's. I read it through and thought to myself this firm must have some sympathy with suffering humanity. I wrote to them for a question list blank, which I filled out and returned to them, stating my symptoms and pains. To my great surprise I received by return mail the best and most substantial advice that I ever before read. This advice gave me the greatest confidence in the World's Dispensary Medical Association, even so great that I at once left off all former remedies and tried Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I used about eight vials of the 'Pellets' and ten bottles of the 'Discovery' which brought me back to my former state of health."

TO BE KEPT IN MIND.
Let every person who has some slight disorder of the stomach keep this in mind: What hurts the stomach hurts the whole body and every part of it. The body is sustained by food when digested and converted into nutrition. But when the stomach and other organs of digestion and nutrition are diseased the food eaten cannot be properly digested, the nutrition of the body fails, with the natural result of weakness. Hence the loss of flesh, the run-down condition, the "weak" heart, sluggish liver, "weak" kidneys and other diseases which are a direct result of the diseased condition of the stomach.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, and therefore the proper nourishment of the body. By its use lost flesh is regained, weakness gives place to strength, and the body is built up with sound flesh and solid muscle.

Earnings of a majority of the railroads are running about 10 per cent. ahead of last year in January, and indications are that unless weather conditions interfere they will continue in about the same ratio despite the lighter movement of corn. Unquestionably, the inability of the roads to move traffic offered has been a serious embargo on earnings, which would have been even more favorable. An expert official on traffic matters says that had the roads 10 per cent. more rolling stock it would have been well employed for many months past.

The Public Memory.

The need of persistence in advertising is due to the demands on the memory of the public. The number of business establishments which seek publicity constantly increases, and a concern which advertises only occasionally is thought of only occasionally. The succession of important events is so rapid that the sensation of last week is forgotten this week. The constant advertiser is always in the mind of the buying public.

We having just bought the store of M. E. Flynn, corner Brown and Poplar streets, would solicit the patronage of the public generally. We keep everything usually kept in first class grocery stores; also a full line of fresh meats. Goods delivered to any part of the city.

An Old Time Letter.

James Blair, of North Lynn street, has an old letter written to his father, James Blair, dated at Mt Pleasant, Martin county, April 19, 1854, signed by the latter's brother Ezekiel Blair and his wife Sarah Blair. The letter was written before envelopes were used and was so folded with the ends tucked in that the address appeared on the back of the folded sheet. No postage stamp was affixed but the recipient of the letter was required to pay five cents to take it from the office. The letter was written in a neat hand on light blue paper and is remarkably well preserved.

THIS WOMAN

Applied for a divorce and got it.

The reason for doing so would be thought strange by us, but the Turkish courts of her time considered her grounds ample and valid.

What were they?

Her husband refused to supply her with good coffee.

We do not think these grounds sufficient for divorce, but if one finds chicory and other adulterations in the coffee grounds at home, it will often be found to be the primary cause of domestic disaster.

Good coffee is enjoyable, and what is more, healthful.

Good coffee can be had by anyone who will buy Chase & Sanborn's Coffees. Their Seal Brand is used in the best families in the country, and their high-grade coffees which come packed in parchment-lined imported bags are unequalled in excellence.

Pure, perfect, carefully selected and prepared, and what is more, it is all coffee; nothing in it in the way of an adulteration. If it ever paid to buy the best in anything, it does in buying coffee.

FIVE GENERATIONS.

An Aged Lady of Jennings County

Has Three Great-Grand-Children.

Mrs. Ruth Russell, of Grayford, Jennings county, is the living head of a family of five generations. She celebrated her eighty-seventh birthday September 1, 1901. Her maiden name was Bland, and she was born and raised near San Jacinto, Jennings county, only a few miles from where she now lives. She has lived near where she was born all her life, except a few years she and her husband owned a farm three miles west of Walesboro, Bartholomew county. This farm they traded for the old Russell home farm, which was once owned by Jacob Stillinger, near Grayford, father of Conductor Frank Stillinger, of Columbus. She now lives in the old home where she spent most of her married life, near Grayford, with her son, Josephus Russell, aged fifty-five years and still a single man.

This venerable pioneer lady is still hale and hearty and bids fair to reach her 100th anniversary. She has three great-grand-children forming the junior link of the fifth generation—the five-year-old son of Mr. and Mrs. Thomas Denton, Indianapolis, and two children of Mr. and Mrs. Les Champion, of Manila, one aged three years, the other five months.

Mrs. Russell's living children are Mrs. Mary Spaulding and Noah Russell who reside in Missouri, Abe Russell, of Columbus, and Jacob and Josephus Russell, of Grayford.

The mother of Harry Graves, of Columbus, was a twin sister of Josephus Russell. She died near the family home at Grayford, four years ago, February 3, coming.

This venerable lady remembers well when Jennings county was teeming with wild game, such as deer, wolves, wild turkeys, wild cats and wild hogs; when the early pioneers took a gun and went into the woods and killed whatever kind of game meat their appetite craved, and laid it on a sled and dragged or hauled it in. It was plentiful and to be had without money and without price, except the cost of killing and carting home.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Mrs. Julia Filbridge, West Cornwall, Conn.

A WORLD WIDE VICTORY.

The recent victories of the house of Baldwin at the Paris Exposition give to its products a value and prestige not possessed by any other American piano. The grand Prix awarded the Baldwin Piano is an honor coveted by all the manufacturers of the world, but which has never been bestowed upon any American piano except the Baldwin. The Silver Medal awarded the Hamilton pianos and organs shows the estimate of the International Jury of these Standard Instruments. The fifteen other awards [gold, silver and bronze medals, and honorable mentions], serve to emphasize the Great one, and show the high value placed upon the details of construction and the inventions embodied in these instruments.

Kodol

Digests what you Eat

Dyspepsia Cure

The medical profession is one of the most conservative in the world. It is well that it should be so. We want no experimenting with our lives or health. The physician is naturally and justifiably careful to prescribe no remedy until well satisfied of its merits. So it is no small testimonial to the worth of Kodol Dyspepsia Cure that it is coming into general use among physicians of all classes. They appreciate even more readily than the layman that it gives weak stomachs just the rest they need and are prescribing it freely with wonderfully successful results. No dieting is necessary. Eat all you want. While you are strengthening the body with wholesome food Kodol Dyspepsia Cure is restoring the stomach to perfect health by relieving it of its work. Don't be satisfied with merely temporary relief when this remedy offers a complete cure. "I have used in my practice quite a lot of Kodol Dyspepsia Cure with no failures, but relief in almost all cases," writes Dr. W. L. Wallace of Kingstree, S. C. "After an active practice of forty-five years this is the first time I have ever had occasion to publicly advise all dyspeptics that they have a certain remedy in Kodol Dyspepsia Cure."

Mr. William Zickler, of Poplar street, insurance agent, says: "I can recommend Doan's Kidney Pills, sold at C. W. Milhous' drug store. I suffered from pain over my hips and sometimes in the upper part of my shoulder. A very short course of the treatment with Doan's Kidney Pills banished the pain across my kidneys and up to date there has been no recurrence. I was told by my physician that the trouble was owing to uric acid in my system but since taking Doan's Kidney Pills I think I am about rid of it. They were positive in ridding me of the backache and regulating the action of the kidney secretions."

NAPOLEON'S ORDER.

THE LEGION OF HONOR AND HOW IT WAS FOUNDED.

Despite the ridicule the Project at First Invited Its Inauguration Proved That Napoleon Knew French Human Nature.

France owes the Legion of Honor to Napoleon. All orders of chivalry had been abolished by the revolution and had left a gap which it was not easy to fill. "They are mere keegaws," said Monge, the chemist, who had taught the revolutionists how to make gunpowder out of plaster of paris. "Gee-gaws, if you will," the first consul answered, "but people like them. Let us approach the question frankly. All men are enamored of decorations—the French more than any. They positively hunger for them, and they have always done so."

This was at Malmaison in 1802. In May the conseil d'etat was invited to consider the project of the institution of the Legion of Honor. It was ridiculed by many, notably by Moreau, who as victor of Hohenlinden was bitterly jealous of the victor of Marengo. At a dinner party he sent for his cook and said to him in the presence of his guests: "Michel, I am pleased with your dinner. You have indeed distinguished yourself. I will award you a sauceman of honor." Mme. de Stael was also satirical upon the subject. "Ah, one of the decorated?" she used to ask each guest who was shown into her salon.

But Napoleon had gauged human nature correctly. His Legion of Honor did meet a felt want, and it was definitely inaugurated on July 14, 1804. Among the eminent men of science and men of letters on whom it was then bestowed were included Laplace, the mathematician; Lalande, the astronomer; Cuvier, the naturalist, and Legouvie, the poet. The most notable name omitted was that of Bernardin de St. Pierre, just then in disgrace for championing Mme. de Stael, whom Napoleon had banished, but he got the decoration later on the entreaty of Queen Hortense.

After Jena Goethe was decorated. A little later high promotion in the order was given to General Lamarque, to whom Sir Hudson Lowe had surrendered at Capri. "What did you do with him?" asked Napoleon. "The king of Naples had him exchanged for a Neapolitan general who was a prisoner in Sicily." "Very well; there is no harm in letting this English colonel go. He is not dangerous." It seems not unlikely that Sir Hudson Lowe remembered this sarcasm when he was Napoleon's jailer a few years afterward.

After Napoleon's downfall the question of suppressing the Legion of Honor arose. Chateaubriand, whom Napoleon had not decorated, strongly urged its abolition. So did Puzzo di Borgo, Marshals Victor, Marmont and Moreau opposed. After debate it was decided to recognize and retain the order, not on any high moral or patriotic grounds, but because Louis XVIII. could not afford to make himself more unpopular than he was already by stripping people of their decorations. Chateaubriand and Lamartine consented to accept the red ribbon, but it was also conferred upon a great number of worthless personages and so brought into contempt.

There have been many Legion of Honor scandals since those days, but one of them surpasses all the others in magnitude. This is, of course, the Wilson scandal, the history of which, though intricate, is worth recalling.

The trouble may be said to have begun on the day on which Mlle. Aline Grey fell in love with an opera singer who need not be mentioned here. He wanted to marry her, and she wanted to marry him, and the papers were beginning to couple the two names in a manner most embarrassing to the president of the republic. The president, however, sent the opera singer about his business and found his daughter another husband, not a very good husband, but the best husband he could procure on the spur of the moment. His choice fell upon M. Daniel Wilson, who had long been one of M. Grey's political supporters and was a financier of some mark.

No sooner was M. Wilson established at the Elysee than he proceeded to enrich himself by various means. Among other things, he founded a paper called Le Moniteur de l'Exposition Universelle, which really covered a traffic in decorations. The whole story came out in a state trial toward the end of 1887. It was proved that Wilson had made a regular practice of selling the Legion of Honor, or, rather, of inviting people who wanted it to bribe him to use his influence to obtain it for them. His overtures were presented through his jacks, Generals d'Audlan and Cuffier and Mmes. Limousin and Rattazzi, and the whole party had to stand in the dock together.

Wilson was sentenced to two years' imprisonment, a fine of 3,000 francs and five years' deprivation of civil rights. He appealed, and the court of cassation annulled the judgment. The accused, said the judges, was obviously guilty of everything that he was charged with, but as his offenses were not anticipated by any punitive law he could not be punished. So he retired to the country and tried to live down his bad name. As he ultimately got himself elected councillor general, one must suppose that he succeeded in this object.—Fall Mail Gazette.

His Mission.

A lawyer was passing along the street carrying under his arm a law-book when he was accosted by a self-righteous individual: "Ha, Mr. Blank! And where are you going to preach to-day?"

"I don't preach, I practice," replied the lawyer.
